Description

Our Carbon Steel grill grate is created by using a sloped v-grate and drip pan. This feature along with our adjustable grilling system allows you to maintain a uniform temperature allowing the meat to cook evenly without any unwanted flareups. The main feature of the Argentine grill grate is its slope which allows the drippings to roll toward the front and into a removable drip pan. Carbon Steel requires seasoning but offers the best heat transfer and results. pan.

Pricing for Carbon Steel V-Channel Grates only  
Drip tray included
